

Excerpt from Journal

28 July 1958

STAT [] reported that Mr. John W. Flatley of GSA had seen the staffs of the House Government Operations and the Senate Government Operations Committees on the proposed negotiated sale of two transmitters to AMCOMLIB. There is some indication that the Agency was expected to be available for questioning by the full Senate Committee, chaired by Senator Hubert H. Humphrey (D., Minn.), on 29 July. After [] indicated to Flatley, at my request, that no Agency representative would be present, a call was placed to Walter Reynolds, the Chief Clerk. Reynolds felt that some action was appropriate to explain the security factors, and I suggested that a direct call to Senator Humphrey might be helpful. Reynolds heartily agreed and this is being attempted.
